5.1 Your Path From Here

What You'll Get From This

A clear picture of where to go next based on what you want to build.

You finished The Foundation.

You have tools installed (**1.1**), a folder system that gives Claude context (**1.2**), a prompting framework (**1.3**), six videos explaining the ideas underneath all of it (**Section 2**), the full folder architecture (**Section 3**), and Claude Code running on your machine (**Section 4**).

That is a working system. Everything from here builds on it.

Level 2 — Implementation Playbooks

Unlock by engaging in the community. Hands-on courses where you build real projects.

Building Animations The full pipeline for creating video animations with Claude Code and Remotion. Script to spec to build to render. Four lessons including a community challenge.

The Ultimate Browser (Claude Extension) Claude running inside Chrome. Pull data from any page, teach Claude your workflows, automate inbox and scheduling. Four lessons with real use cases.

Level 3 — Building Your Stack

For members who have built with Level 2 and want to push further.

4.1: Install and First Use

4.2: Claude Code in Practice

4.3: Claude Desktop as a Thin...

4.4 Making Claude Understan...

4.5: Where This Goes

SECTION 5: WHERE TO G...

5.1 Your Path From Here

Remote Access for Claude Want to control your Claude Code on your Desktop from your phone? This course teaches you how.

Premium — The Vault ($7/month)

Every downloadable asset in the community. Two structured courses. Discord access.

The Library:

- Workspace Blueprint (full production folder template with routing tables and context files)
- Production CLAUDE.md examples for different use cases
- Folder Organization Guide
- Prompting Framework Guide (one-page reference)
- Animation spec templates
- Workflow starter packs (content pipeline, consulting, development)
- Claude Skills Manual + Resource Index
- New resources added weekly

Courses:

- **The 60/30/10 Framework** — The business methodology for deciding where AI fits. Real case studies. The concept from 2.5 and 2.7 turned into an applied course.
- **Building Your First Workflow End to End** — From folder structure to working multi-step system. One real workflow built step by step with guidance.

Community:

- Discord access (Premium channels)
- Premium discussion threads

VIP — The Drawing Room ($49/month)

Personal access. Everything in Premium plus three things:

Afternoon Tea Live sessions every two weeks. Bring your project, your problem, your build. Small group. We work through it together.

Bespoke Builds Fill out the questionnaire. I build a custom folder setup or workflow designed for your specific work. Your context, your use case, your system.

Discord: Drawing Room Channels Smaller. More direct. Async access between sessions. Flag something for the next Afternoon Tea or ask a quick question.

The Drawing Room is not a content library. You are paying for proximity and personal attention. You show up, you get help, you build.

Not sure which path?

- I want to... Start here Build animations or video content
- Level 2: Building Animations Automate browser tasks
- Level 2: The Ultimate Browser Build my own AI interface
- Level 3: Custom UI Get templates, assets, and structured courses
- Level 3: Remote Access for Claude
- Premium: The Vault Get live help on my specific project from Jake
- VIP: The Drawing Room
- Keep learning for free
- Go back through Sections 1-4 and do every check-in.
- Engage in the community.

Other places to go

- **Community feed** — Introduce yourself. The intro post has 600+ comments and is the best place to see what everyone is building.
- **Discord** — Available to Premium and Drawing Room members.
